

HERNANDO COUNTY EMERGENCY OPERATIONS CENTER ALERT

EVENT	Subtropical Storm Nicole
DATE	8 November 2022
TIME	8:30 AM
REPORT #	2
EOC LEVEL OF ACTIVATION	Level 3 – Monitoring

CURRENT SITUATION

Nicole’s center is 665 miles east of Tampa Bay with sustained winds of 45 mph and moving Northwest at 8 mph. Nicole is forecast to organize into a CAT 1 (74mph) at landfall on the east central coast of Florida Wednesday night. Expect tropical storm force winds in rain bands as they enter central and western Florida Wednesday afternoon and overnight. There is a large wind field on the north side of the storm due to the northern high pressure. A Tropical Storm Watch has been expanded westward to include all of West Central and Southwest Florida. Rain bands will begin to move inland this afternoon. The current forecast for our area has 2”-4” possible for rainfall. Possible “High Wind Warnings” may be issued for sustained winds of 40 mph or greater, for better than 1 hour – and/or wind gusts 58 mph or greater for any duration.

HERNANDO COUNTY EMERGENCY OPERATIONS CENTER ALERT

WATCH, WARNINGS, ADVISORIES:

- Tropical Storm Watch has been issued for all west central Florida.

IMPACTS:

- Possible 2"-4" of rainfall for the current forecast. Tropical storm force winds in rain bands as the enter central and western Florida Wednesday afternoon and overnight.
- Wind forecast for possible maximum sustained winds at Tropical Storm wind speeds of 39-73 mph (34 – 63 knots) on Wednesday and Thursday.

RECOMMENDED ACTIONS

- Clear debris from yard and surrounding your home, bring in outside furniture, and take precautions for high winds. Outdoor items and debris have the potential for damage during a storm.
